

MiniPrint for a Cause 2025

The *Belgium International MiniPrint for a Cause* was a unique global art event that brought together printmakers from around the world in a shared mission: to raise awareness and spark dialogue around critical social issues through the power of small-format printmaking.

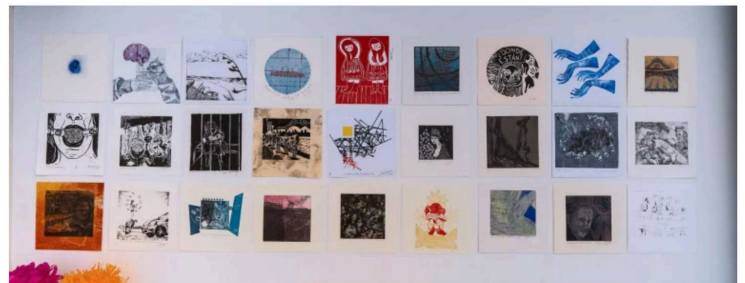

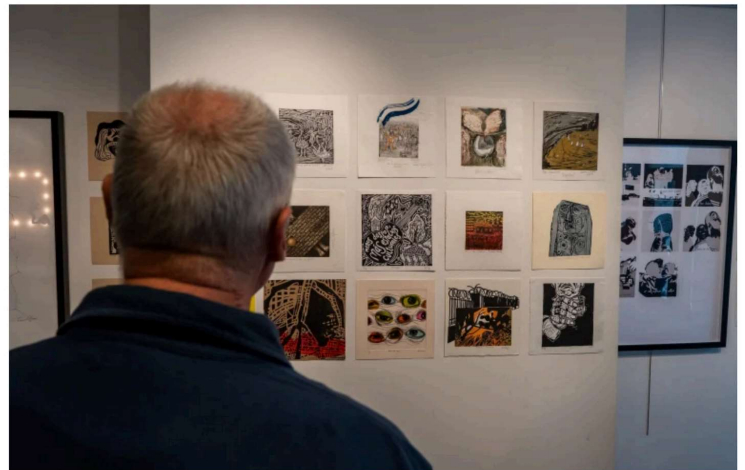

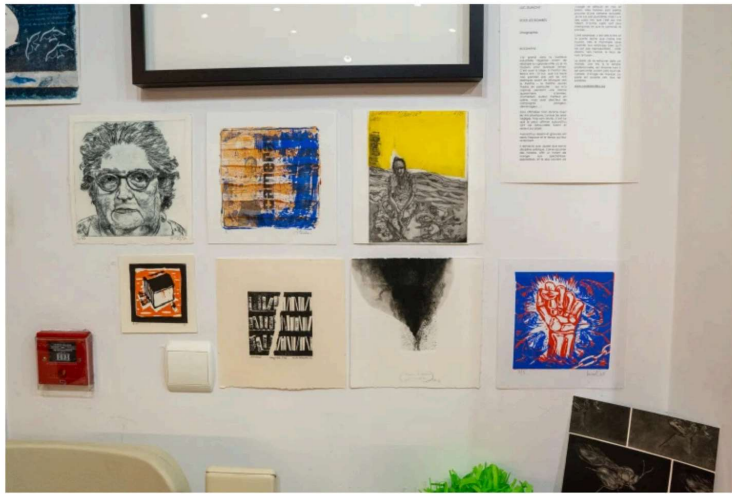

Born from a creative collaboration between two artists from different countries, the project celebrated both the intimacy of the miniprint and the strength of collective artistic voices. The 2025 edition centered on the theme of **Human Rights**, inviting artists to reflect on the challenges, violations, and victories related to fundamental freedoms in their respective countries.

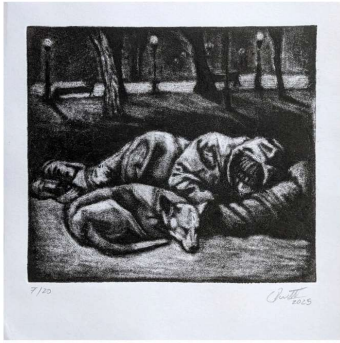

Held at **La Maison de la Laïcité** in **Arlon, Belgium**, from **June 9 to August 29, 2025**, the exhibition showcased works by **over 160 artists representing more than 35 countries**. Together, their prints formed a powerful and diverse statement on the state of human rights around the globe.
